OBJECTIVE

**Targeted Exposure
to a Particular Sector**

The Inspire Select Sector Models each consist of a concentrated portfolio of 10 individual stocks representing a specific Global Industry Classification Standard (GICS) sector. A separate model is available for each of the 11 GICS sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Materials, Real Estate, Technology, and Utilities. These models are designed to complement a broader investment portfolio by providing targeted exposure to a specific market sector, rather than serving as standalone investment strategies. Each model is managed using a systematic, rules-based methodology and is rebalanced at the beginning of each calendar quarter to maintain alignment with its investment process.
